PROFESSIONAL SUMMARY

Results-driven Machine Learning / AI Engineer with 6+ years of experience building scalable models for classification, regression, recommendation, NLP, computer vision, and other relevant tasks. Proven ability to design and implement machine learning solutions that deliver high accuracy, latency, and scalability.

TECHNOLOGIES

Machine Learning Frameworks: TensorFlow, PyTorch, Scikit-learn, XGBoost

AI/Deep Learning Libraries: LLMs; SFT; RL; prompt engineering; AI agents (tool/API calling); Retrieval-Augmented Generation Learning (RAG); Embeddings and Vector Search (pgvector, Pinecone)

Cloud Platforms: AWS, Azure

Data Preprocessing & Feature Engineering: Structured and unstructured data

DevOps & Agile CI/CD pipelines, Git, Code Reviews, Scrum, Automated Testing

EXPERIENCE

Machine Learning / AI Engineer | Turing | California, US | Nov 2024 – Present

- Design and implement machine learning models for classification, regression, recommendation, NLP, computer vision, or other relevant tasks.
- Build data pipelines for feature extraction, model training, and evaluation.
- Optimize and fine-tune models for accuracy, latency, and scalability.
- Collaborate with cross-functional teams to translate business requirements into AI solutions.

Lead Product Engineer (Contract) | Edubanc (Sterling Bank Subsidiary) | Lagos, Nigeria | May 2024 – February

2025

- Wrote clear technical specs, API docs, and integration guides for financial services built with Golang and NestJS.

- Created architecture diagrams and standardized Markdown-based documentation pipelines with Git workflows across teams.

Software Engineer / Technical Writer (Full Stack) | Heirs Holdings | Lagos, Nigeria | Oct 2023 – Nov

2024

- Wrote comprehensive technical documentation for the Converge ERP microservice application covering its transition from .NET

4.5 to .NET 8 and services built with PHP and React.

Solution Engineer (Full Stack) | DipoleDIAMOND | Lagos, Nigeria | Jan 2023 – Nov 2023

- Led a team to build chatbots for tier-one and tier-two banks and 4 corporate clients.
- Integrated bank APIs to enable seamless chatbot interactions with financial systems.

Software Engineer | The People Practice (Contract) | Remote (Lagos, Nigeria) | Oct 2023 – Dec 2023

- Designed and implemented 8 APIs to optimize HR Tech solution improving search functionality and system performance by 35%.

EDUCATION

Bachelor of Science | University of Benin, Edo, Nigeria | 2013 – 2017

CERTIFICATIONS

AWS Educate Machine Learning Foundations (AWS) | 2025

Google Africa Developer Training Program | 2019
