

Tobechukwu David Uka

+2349136351625 | ukadavid7@gmail.com | Lagos, Nigeria | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Machine Learning / AI Engineer focused on designing and deploying cutting-edge models to combat counterfeiting, product theft, and adulteration. Proficient in prompt engineering, LangChain/LangGraph for intelligent Agentic AI, and experience with TensorFlow Serving, TorchServe, or cloud-based tools.

TECHNOLOGIES

Advanced Python, Scikit-learn, XGBoost, TensorFlow, PyTorch, Kaggle; Natural Language Processing (NLP), Computer Vision; Data Preprocessing, Feature Engineering for structured and unstructured data; Deploying models to production using Docker, Flask, FastAPI, or cloud ML services; Strong understanding of algorithms, statistics, and data structures.

EXPERIENCE

Machine Learning Engineer | Sproxil | California, US | Nov 2024 – Present

- Collect, clean, and organize data from various internal and external sources.
- Design and implement machine learning models for classification, regression, recommendation, NLP, computer vision, or other relevant tasks.
- Build data pipelines for feature extraction, model training, and evaluation.
- Optimize and fine-tune models for accuracy, latency, and scalability.
- Collaborate with cross-functional teams to translate business requirements into AI solutions.
- Deploy models into production using frameworks like TensorFlow Serving, TorchServe, or cloud-based tools.

Lead Product Engineer (Contract) | Edubanc (Sterling Bank Subsidiary) | Lagos, Nigeria | May 2024 – Present

- Produced end-to-end solution designs for Edubanc middleware (consumer and enterprise use): business requirements,

architecture diagrams, and detailed build specs.

- Led development of PayFlex loan product from conception to deployment, driving key

features and integrations.

Software Engineer (Full Stack) | Heirs Holdings | Lagos, Nigeria | Oct 2023 – Nov 2024

- Optimized Converge ERP workflows for 40,000 employees across a \$6.9B portfolio, enhancing efficiency by 50%.

- Designed application modules for ERP workflows serving large internal user bases; produced conceptual and detailed designs

aligned to enterprise standards.

Software Engineer (Full Stack) | DipoleDIAMOND | Lagos, Nigeria | Jan 2023 – Nov 2023

- Led a team of 5 to build chatbots for tier-one and tier-two banks, as well as 4 corporate clients.

- Coordinated with vendor APIs and Security teams to meet compliance; created test plans and supervised UAT.

Software Engineer | The People Practice (Contract) | Remote (Lagos, Nigeria) | Oct 2023 – Dec 2023

- Designed and implemented 8 APIs to optimize HR Tech solution, improving search functionality and system performance by 35%.

Solution Engineer (Full Stack) | ZEDIRAX MULTI CONCEPT | Lagos, Nigeria | Jan 2019 – Dec 2022

- Directed a 15-member development team to deliver a health-tech product on time and within budget.

- Spearheaded end-to-end implementation of SaaS offerings, achieving seamless client integrations and adoption.

EDUCATION

Bachelor of Science, Biochemistry | University of Benin, Edo, Nigeria | 2013 – 2017
